

ONE COWARDLY NERD

It's done. Governor Snyder signed the bill in the secrecy of his office or a closet or wherever else he goes to deal with the shame of turning his state into Indiana or Mississippi or Bangladesh because he wasn't tough enough to stand up to Dick DeVos.

Michigan is now the 24th state that limits union contracts and only union contracts on fees.

And unless we change it the Democratic Party will become even more captured by the oligarchs.
