This is actually just a stub for trash talk that I expect (hope?) bmaz (and if not bmaz, then Rosalind) will fill, as soon as they see I loaded up the Brady Pron.

But scribe says he needs to trash.

And I'm going to admit ahead of time that BillBel is playing games with injury reports heading into Atlanta.

Also, Da Bears-Kitties game will come down to whether Stafford can find someone besides Megatron to throw to, with Nate Burleson out.

Also, I think Stillers will beat Matt Cassell (!)'s Vikings under Big Ben.

Anyway, won't be long now before bmaz rushes in to stop the playing of this video.
