

KILLER CLOWN ATTACKS AMERICAN'S FREEDOMS...AND DR. FAUCI

Rep. Jim “Begged Witness Not to Squeal” Jordan went off on Dr. Anthony Fauci, Director of the National Institute of Allergy and Infectious Diseases, during the first round of questioning of Friday’s House Select Committee on COVID Oversight hearing.

The point of the hearing was to address the lack of a national strategy to contain COVID-19.

Jordan, as usual, derailed the hearing’s focus to score political points with Trump.

Fauci can’t say that any crowd is better than another at this point, not just because he’s supposed to provide ideology-free advice as a medical professional – not to mention Fauci can’t advocate shutting down an exercise of the First Amendment when Jordan asks “Should we limit the protesting?”

The doctor can’t say anything which would encourage activity in groups even with masks because it’s just too risky right now.

But Jordan, being the circus clown he is, continues to harangue Fauci in pursuit of usable digital content to help Trump’s agenda. Content later used like this idiotic context-sanitized bullshit:

MUST SEE: @Jim_Jordan CONFRONTS Dr. Fauci!
@realDonaldTrump

Take a look around the internet; the right-wing horde seized on Jordan's clown show with ALL CAPS and wrestling-action verbs like EXPOSES, HAMMERS, PRESSES, CRUSHES to describe Jordan's antics. (Sadly, C-SPAN used "grills" which isn't neutral.)

Fauci was too nice and too cautious on this point; he could have pointed to Trump's misbegotten Tulsa campaign rally and Herman Cain's subsequent death from COVID-19 but he didn't.

Nor did Fauci refer to the study later submitted to the record which analyzed COVID-19 case counts after anti-racism protests.

The study found the protests did not result in increased COVID-19 cases.

Abstract

Sparked by the killing of George Floyd in police custody, the 2020 Black Lives Matter protests have brought a new wave of attention to the issue of inequality within criminal justice. However, many public health officials have warned that mass protests could lead to a reduction in social distancing behavior, spurring a resurgence of COVID-19. This study uses newly collected data on protests in 315 of the largest U.S. cities to estimate the impacts of mass protests on social distancing and COVID-19 case growth. Event-study analyses provide strong evidence that net stay-at-home behavior increased following protest onset, consistent with the hypothesis that non-protesters' behavior was substantially affected by urban protests. This effect was not fully explained by the imposition of city curfews. Estimated effects were generally larger for persistent protests and those accompanied by media reports of violence. Furthermore, we find no evidence that urban protests reignited COVID-19 case growth during the more than three weeks following protest onset. We conclude that predictions of broad negative public health consequences of Black Lives Matter protests were far too narrowly conceived.

So no, Killer Clown Jordan, protests in the streets against systemic racism in policing by mask-wearing participants do not increase COVID-19 cases or deaths.

If you want to be technical about it, there have been too many anecdotes of events indoors like church choir practices which have resulted in clusters of COVID-19 cases and deaths. These kinds of meetings needed to be outdoors with participants wearing masks, even if socially distanced and washing hands as appropriate. Being indoors was the key problem along with not wearing masks.

But there's one more problem with the clown show Jordan put on.

What Jordan did with his usual ignorant and loud routine was not to educate the public, not to encourage an improvement in services from NIAID or CDC or Dr. Fauci.

What Jordan did with his typical filibuster is to continue to obstruct development of a national response to COVID-19.

What Jordan did was to continue the political genocide and ethnic cleansing of Americans by ensuring federal services are withheld under a national response to the pandemic.

Jordan denied Americans, particularly those in blue cities and minority communities, honest goods and services to which they are entitled. He'll get away with it, though, because his circus act will fall under Speech or Debate.

Jim Jordan, killer clown, in name and in fact.

This is an open thread.
