

RUNNING THREAD OF EMPTYWHEEL'S RUNNING THREADS ON THE SSCI REPORT

I've been doing running Twitter threads on each chapter of the SSCI Russia Report. It has gotten too unwieldy for Twitter, so I'll collect all those threads here:

- Introduction and Paul Manafort
- Hack and leak campaign
- June 9 Meeting
- Trump Tower
- George Papadopoulos
- Carter Page
- Maria Butina
- Kompromat
- Cambridge Analytica and other non-GRU social media campaigns
- Transition period dalliances
- Peter Smith and other rat-fuckery
- The Steele dossier
- Recommendations and Additional views

Here are the posts I've written so far:

- Trump Tried to Claim Privilege Over a Document Flynn Claimed to Not Remember
- SSCI Confirms that Mueller Considered CFAA Charges for Don Jr.

- SSCI's Timidity on Trump Tower Moscow
- SSCI's Asymmetric Interest in Partisan Use of Oppo Research
