

BIG CRIMINAL JUSTICE NEWS — AND NOT SO BIG CRIMINAL JUSTICE NOT NEWS

Joe Biden just pardoned everyone convicted at the federal level of simple marijuana possession, while encouraging Governors to follow suit.

Proud Boy Jeremy Bertino just pled guilty to seditious conspiracy and weapons possession. (Here's the statement of offense.)

And ... far less interestingly, but noting for the record, FBI agents trying to force David Weiss to indict Hunter Biden leaked to Devlin Barrett just like FBI agents trying to harm Hillary Clinton leaked to Devlin Barrett in 2016.

Back to the stuff that matters. Bertino will be a witness not just against Enrique Tarrio and Joe Biggs, but also against Roger Stone (this plea happened as yet more testimony implicating Stone was introduced into the Oath Keeper's trial). DOJ now has both seditious conspiracy trials focused on the former reality TV show host's rat-fucker.

And my goodness, the marijuana pardon will positive affect almost as many lives as the student loan forgiveness (But See Ravenclaw's correction here).
