

# THE MICHAEL FLYNN COMPLAINT FOR DAMAGES AGAINST THE US

As  
commenter  
David F.  
Snyder  
noted  
yesterday,  
yes  
Michael  
Flynn has  
filed a

complaint for \$50,000,000 damages against the US Government for all the perceived wrongs and grievances that he, his unhinged lawyers like Sidney Powell, and rabid MAGA Republicans have been carping about forever. A thread on this started out in Marcy's "JUDGE UNSEALS DETAILS ON COOPERATING WITNESS IN DOUGLASS MACKEY CASE", but I am going to bring it here so as to not pollute that post and give people a place to discuss Flynn.

I took a look at the docket for the fledgling case. It is filed in the Middle District of Florida, where Flynn resides. That is the only discernible nexus to MDFL as pretty much all facts, actors and witnesses would be in or about the DC District. Here is the docket entry for the complaint, which was actually filed on March 3, 2023:

NEW CASE ASSIGNED to Judge Mary S. Scriven and Magistrate Judge Christopher P. Tuite. New case number: 8:23-cv-0485-MSS-CPT. (SJB)

The complaint itself is attached to this Rolling Stone article by a detestable SCRIBD (seriously, nobody should ever convey documents by SCRIBD).

It is 50 pages long, and I am not wasting my PACER account on it.

Marcy, in the earlier thread, said:

Not only does it not have legs, but if it survives the summary judgment stage (which is unlikely) it may catastrophically backfire on him.

I think that is right, but the case may not ever get that far. It may not even make it to a summary judgment motion, as it may well not make it past a 12b6 motion, which would be the initial attack by the government.

Couple of notes, the complaint alleges compliance with the FTCA (Federal Tort Claims Act), but claims the government never responded. Scriven is a Bush Jr. appointee and Tuite a Trump appointee to the magistrate bench. Sid Powell is noticeably absent from noticed attorneys, but Shawn Flynn, son of Michael's brother, Gen. Charles Flynn, is listed. That could be interesting if Charles is to be a fact/damages witness, which would kind of be expected.

Very hard to see this matter gaining any real traction given all the facts and rulings against Flynn in the underlying criminal case in front of (now senior status) Judge Emmet Sullivan of DC District.
