

# AT LEAST FOUR TRUMP SUPPORTERS ARRESTED FOR CHEATING

Thus far, four Trump supporters have been arrested for cheating.

There's Danielle Christine Miller, charged with two felonies for casting a vote in her dead mother's name for Trump.

There's Larry Lee Savage Jr, who stole two ballots during a test run of voting machines in Indiana.

There's Val Biancaniello, who was arrested for disorderly conduct after allegedly harassing voters in a line in Media, PA.

And there's Caleb James Williams, who harassed early voters in Neptune Beach, FL waving a machete.

Update: Jeffrey Michael Kelly, who was arrested last week for shooting up some Democratic offices in AZ, was indicted on terrorism charges today.

In addition, an unaffiliated racist, Nicholas Farley, was arrested in West Palm Beach for yelling racial and antisemitic slurs at voters (I'm not counting him as a Trump supporter because he was intimidating Republican voters too).

Trump, predictably, is claiming that others are cheating.

Pennsylvania is cheating, and getting caught, at large scale levels rarely seen before. REPORT CHEATING TO AUTHORITIES. Law Enforcement must act, NOW!

And the Republicans on the Supreme Court permitted Glenn Youngkin to continue purging voters, including some citizens, from voting rolls in violation of the National Voter Registration Act. [Corrected the law in question.]

Update: A Chinese Green Card holder who is a U Michigan student has also been charged, for illegally voting.
