

BY LYING ABOUT ALEX PRETTI'S MURDER, KRISTI NOEM MAKES HERSELF A CO-CONSPIRATOR IN IT

Jake Tapper took the video of Alex Pretti's murder and overlaid Kristi Noem's lies about it. You can't show with the video what a declaration from a doctor who witnessed the shooting and tried to provide aide described, which proved Noem's claim that medics provided assistance.

As I approached, I saw that the victim was lying on his side and was surrounded by several ICE agents. I was confused as to why the victim was on his side, because that is not standard practice when a victim has been shot. Checking for a pulse and administering CPR is standard practice. Instead of doing either of those things, the ICE agents appeared to be counting his bullet wounds.

I asked the ICE agents if the victim had a pulse, and they said they did not know.

After some cajoling, the murderers allowed the doctor to perform CPR until EMS personnel arrived.

There might have been questions regarding the Renee Good shooting.

Here there are none. CBP goons assaulted Alex Pretti, beat him, and then – when they discovered his lawfully registered weapon – murdered him.

Kristi Noem's lies about what happened – to say

nothing of Greg Bovino's even worse lies (the Star Tribune's fact check is worth reading) – make them both co-conspirators in this murder.

Kristi Noem's goons are responsible for two of three murders committed in the state of Minnesota this year, effectively tripling the murder rate with their reckless and cowardly actions.

And Noem has made it clear she is a participant in the murders.
