

INFORMATION IN AMENDED DNC LAWSUIT REVEALS THAT ROGER STONE IS AT SIGNIFICANTLY GREATER RISK FOR CFAA INDICTMENT

Back in November, I argued that Roger Stone's claims to be innocent of the GRU's hacks on DNC targets might not hold up given that GRU hacked the DNC analytics hosted on AWS in September. Information the DNC lawsuit against Trump, Stone, and others shows that at least some of that hack did post-date a Stone conversation about analytics.
