HENRY'S DATES: MEDICARE PART D

One of the reasons it was so unwise for Tony
Fratto to open his big fat mouth today regarding
the White House habit of losing emails is
because it offered Waxman an excuse to make
previously unreleased information—the dates for
which White House email archives don't
exist—publicly available. That allows us to
discover neat coincidences, such as that all of
OMB's emails disappeared for the period leading
up to Bush's signing of the Medicare Part D
bill.
