

# **ROGER STONE AND JEROME CORSI'S MATRYOSHKA COVER-UP**

For over two years, Jerome Corsi and Roger Stone have been crafting a series of nested cover stories to hide the details of how they learned in August details of what WikiLeaks would release in October. It's fairly clear, this Matryoshka cover-up has become part of Mueller's investigation. It all suggests that whatever lies inside that last little doll is something so damning that the guy with the Nixon tattoo allowed the cover-up to become a second crime.
