

DID I MENTION BUSH IS PREPARING HIS PARDON PEN?

John McCain has called on Uncle Toobz to resign (ignoring, of course, that he may be guilty of the same crime himself), Mitch McConnell has piled on, and even Sarah Palin has decided it is safe to take on her mentor.

But the Bush Administration? Dana Perino's no comment sounds remarkably like the "no comment"s we got just before Bush commuted Scooter Libby's sentence.
