

# **YET ANOTHER WARNING FROM MICHIGAN: FBI BUSTED PLOT TO KIDNAP “THAT WOMAN”**

As you've probably heard by now, the FBI foiled a plot to kidnap Michigan's Gov. Gretchen Whitmer. The conspirators intended to move her across state lines to Wisconsin where she would be tried by a kangaroo court for "treason."

I use word *inspired* loosely, because there doesn't seem to be a direct link between the most aggressive emergency action and the inception and progress of this seditious terror plot. The emergency Stay-Home order was lifted the week the conspirators began planning; what restrictions remained clearly did not stop these men from traveling, meeting, organizing, and planning.

They also didn't have a legitimate beef about the effectiveness of the governor's actions, any more so than the polarized and irrational MIGOP-controlled state legislature. Eleventh largest

by population, Michigan was hit hard early in the pandemic, now ranking 10th in overall COVID-19 deaths. But since Whitmer declared the state of emergency and enacted the Stay-Home order along with a phased reopening process, the state's daily death toll has plummeted and its cases per million is now 40th in the country.

### Michigan COVID-19 data

You'll recall from posts I wrote about the protests opposing Whitmer's orders back in April that the protests cause spikes in active confirmed cases beginning 5-10 days after the protests. They're visible here in these charts.

The plot wasn't about Whitmer's handling of COVID-19.

One only needs to look and listen to the language the conspirators used about Gov. Whitmer to know that this was about hate for a woman with the authority to give orders with regard to a deadly pandemic.

Tyranny to this baker's dozen of white men was about a democratically-elected woman in a position of legitimate authority telling them

what to do.

Trump set the tone for this by refusing to help Whitmer when she asked for federal assistance, by refusing to allow Pence as COVID-19 Task Force chair to listen to Whitmer, and by tweeting, "LIBERATE MICHIGAN" after the first protest against Whitmer's orders.

His tweets yesterday attacking Whitmer again even after the arrests of kidnapping conspirators only reinforce the real intent of Trump and seditious domestic terrorists alike.

What will Trump's tweets spawn next as we head into a second wave of COVID-19, this time with Michigan's governor disempowered by Republicans on the state supreme court?
