

CHENEY AND YOUR 3 OUNCE SHAMPOO BOTTLES

Suskind provides details of how Bush and Cheney ordered up a torture scare just in time for elections. And as a result, you're still surviving off of hotel shampoo when you travel.

BIOTERRORISM ON A GRASSY KNOLL

Joe Persichini, the Assistant Director of the DC FBI Field Office, is going to be the guy who goes down in history as having claimed that Bruce Ivins was acting alone. Thing is, the evidence doesn't prove that claim.

IVINS AND THE ANTHRAX INVESTIGATION

There were at least two points where, by virtue of being a top expert on anthrax, Bruce Ivins may have been able to monitor and perhaps influence the anthrax investigation.

WHO FIRST SPREAD THE IRAQI ANTHRAX CLAIM?

The likely sources for the earliest stories claiming Iraq had a role in the anthrax attack are pretty telling.

THE FISA FIX AND

OBAMA'S PROFILE IN COURAGE LEADERSHIP MOMENT

The desperate push on FISA by the Bush Administration, complicit and subservient Republican Congressional leaders, and their telco partners is about to explode onto the forefront again. We are either a nation of laws that protects citizens and their right to seek redress for being wronged by their government and it's agents, or we are a nation of self serving men like George Bush and Dick Cheney that can do, and get away with, whatever illegal and immoral acts they desire. Barack Obama could put an end to this today if he wanted. It is time for a Profile In Courage.

CAN'T GITMO DIRTY - THE PENULTIMATE STRAW

I want to bring attention to something that really sank in for me yesterday morning and that a few people are starting to pick up on, but not many, and not nearly enough. First the Cheney Administration sacked the military judge that had the gall to allow even a shred of due process to the detainees, and now they have effectively sacked the military lawyers that had the temerity to seek it. This was a knowing and intentional play to deny counsel.

THE BAE BRIBES FUNDED COVERT OPS

The confirmation that the BAE bribes to Bandar bin Sultan went to pay for covert ops sure makes you want to know what covert ops they paid for, doesn't it?

IN MINNEAPOLIS, VEGAN = TERRORIST

It's bad enough the FBI is already looking to infiltrate groups that might protest the RNC Convention in September. It's that they're focusing those efforts on vegans.
